- Clearly define your problem statement
 - Many Times Customer's Delivery Come In 10-15 Days.
 - Consumer fear to buy delicate product online because of improper delivery.
 - Consumer hesitate to pay via online payment methods.
- Gains Like We can give goodies or more discounts , faster delivery to the user.

Stakeholder Mapping

- Core SH: Consumer who is interacting with the website

Eg: - Person who wants to buy a phone.

- Direct SH: Influencer of Consumer

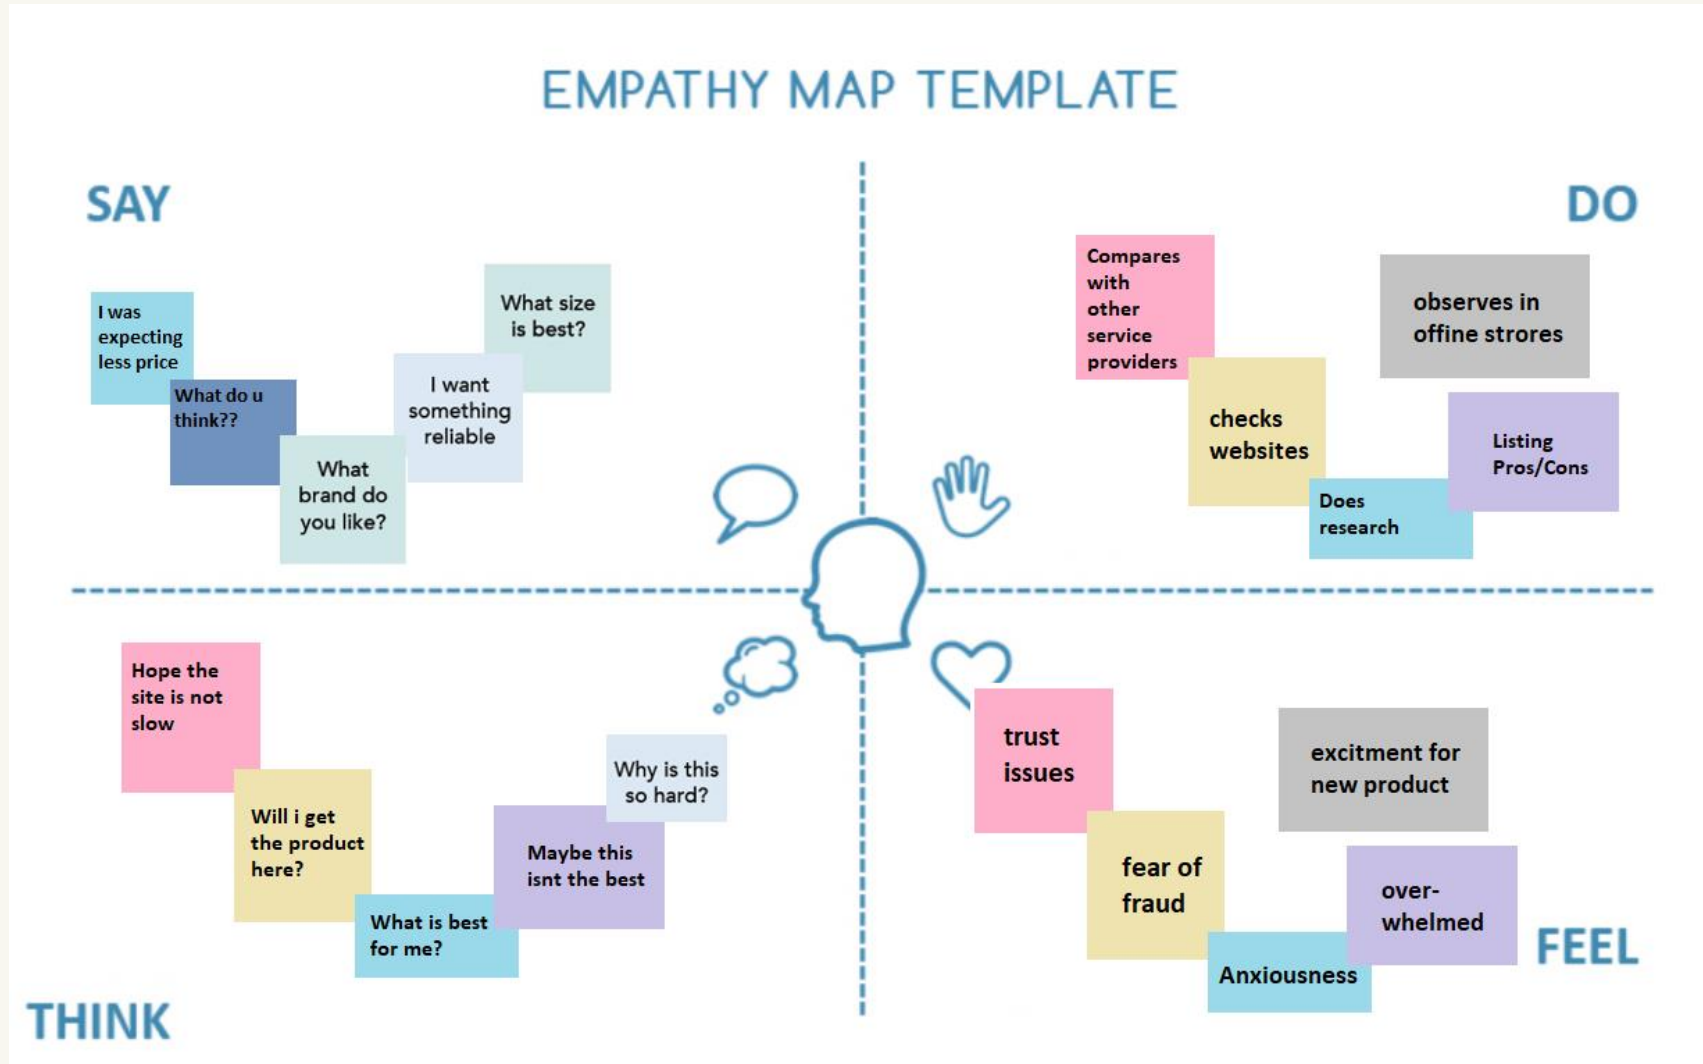

Eg: - The one who influences the consumer to buy a phone.

- Indirect SH: Rest are those who do not directly influence the consumer.

Eg: - The One who may or may not influence CORE or DIRECT SH but they are part of the domain

Empathy Map

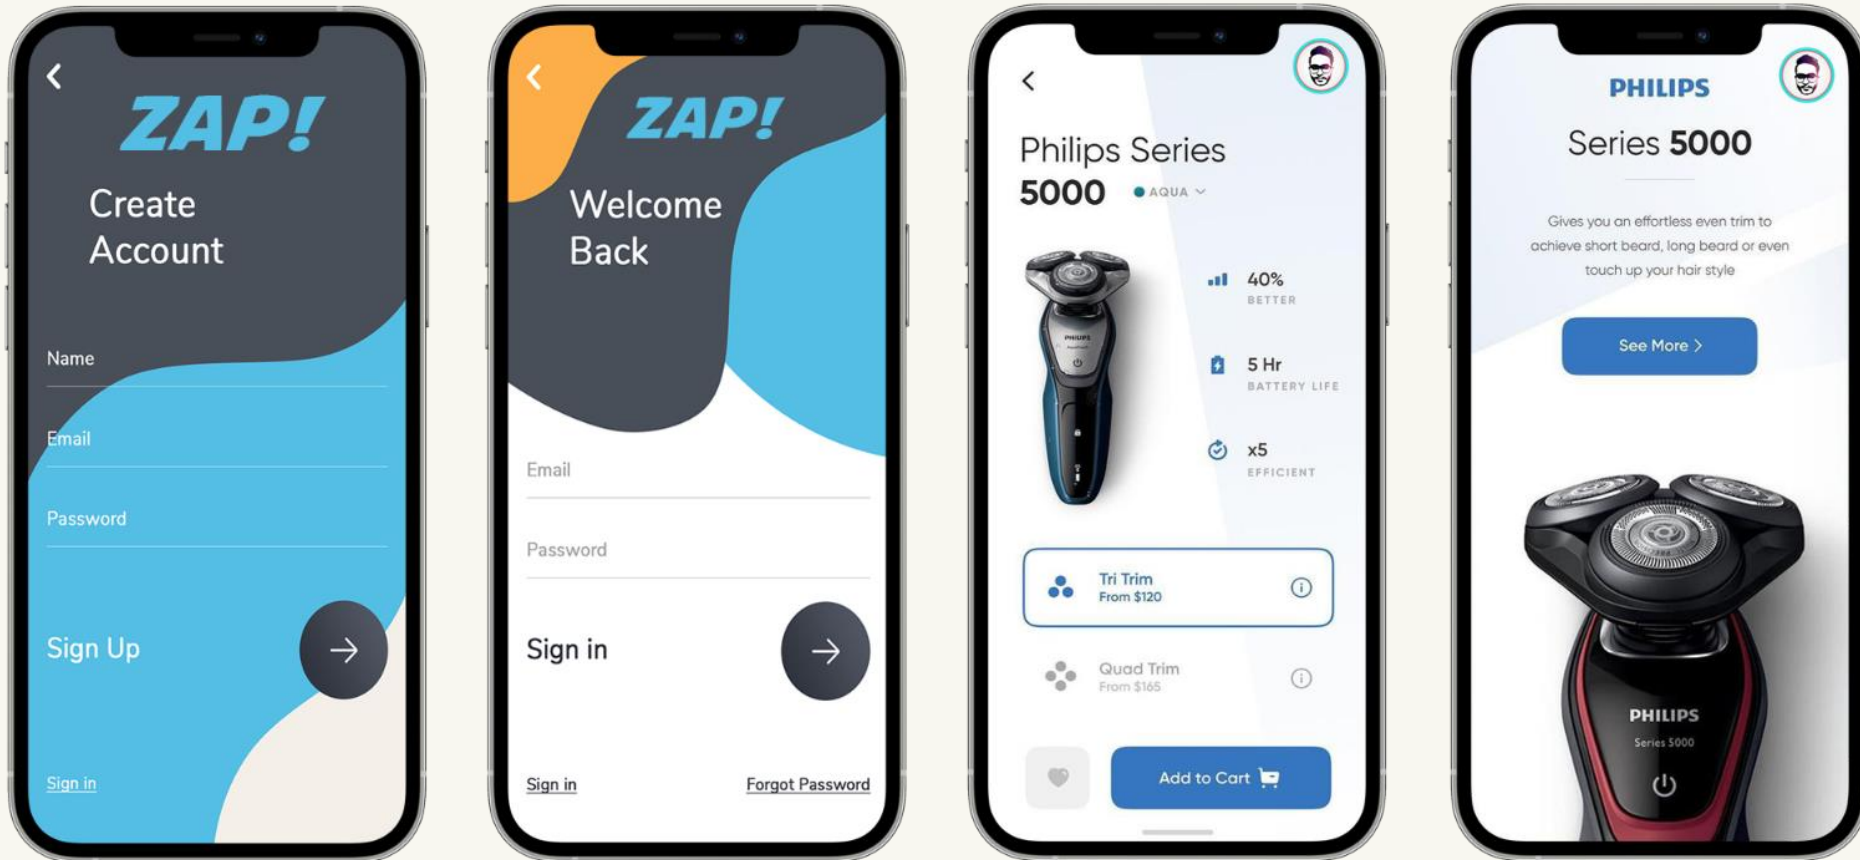

Competition & Barrier To Entry

- How do the current available solutions compare with your solution?
→ Even well established firms like amazon take 3-5 Business days to return money where our firm will help you out in 1-2 Business Days only.
- How easy is it to replicate your solution?
→ It's Easy To Replicate Our Solutions But When It Comes To Implementation It's Very Hard Because Everyone Can't Understand The Whole Process Or Might Miss Out Some Imp. Steps.
- How difficult for you to enter into the market? What are the barriers and difficulties that you will face?
→ It's Too Hard To Enter Market Now a days Because Right Now There Are Well Established Companies Like Amazon , Flipkart , Ajo, Myntra . Because Of That Customers Don't Trust The New Start-Ups And Hesitate To Buy From This New Start-Ups.

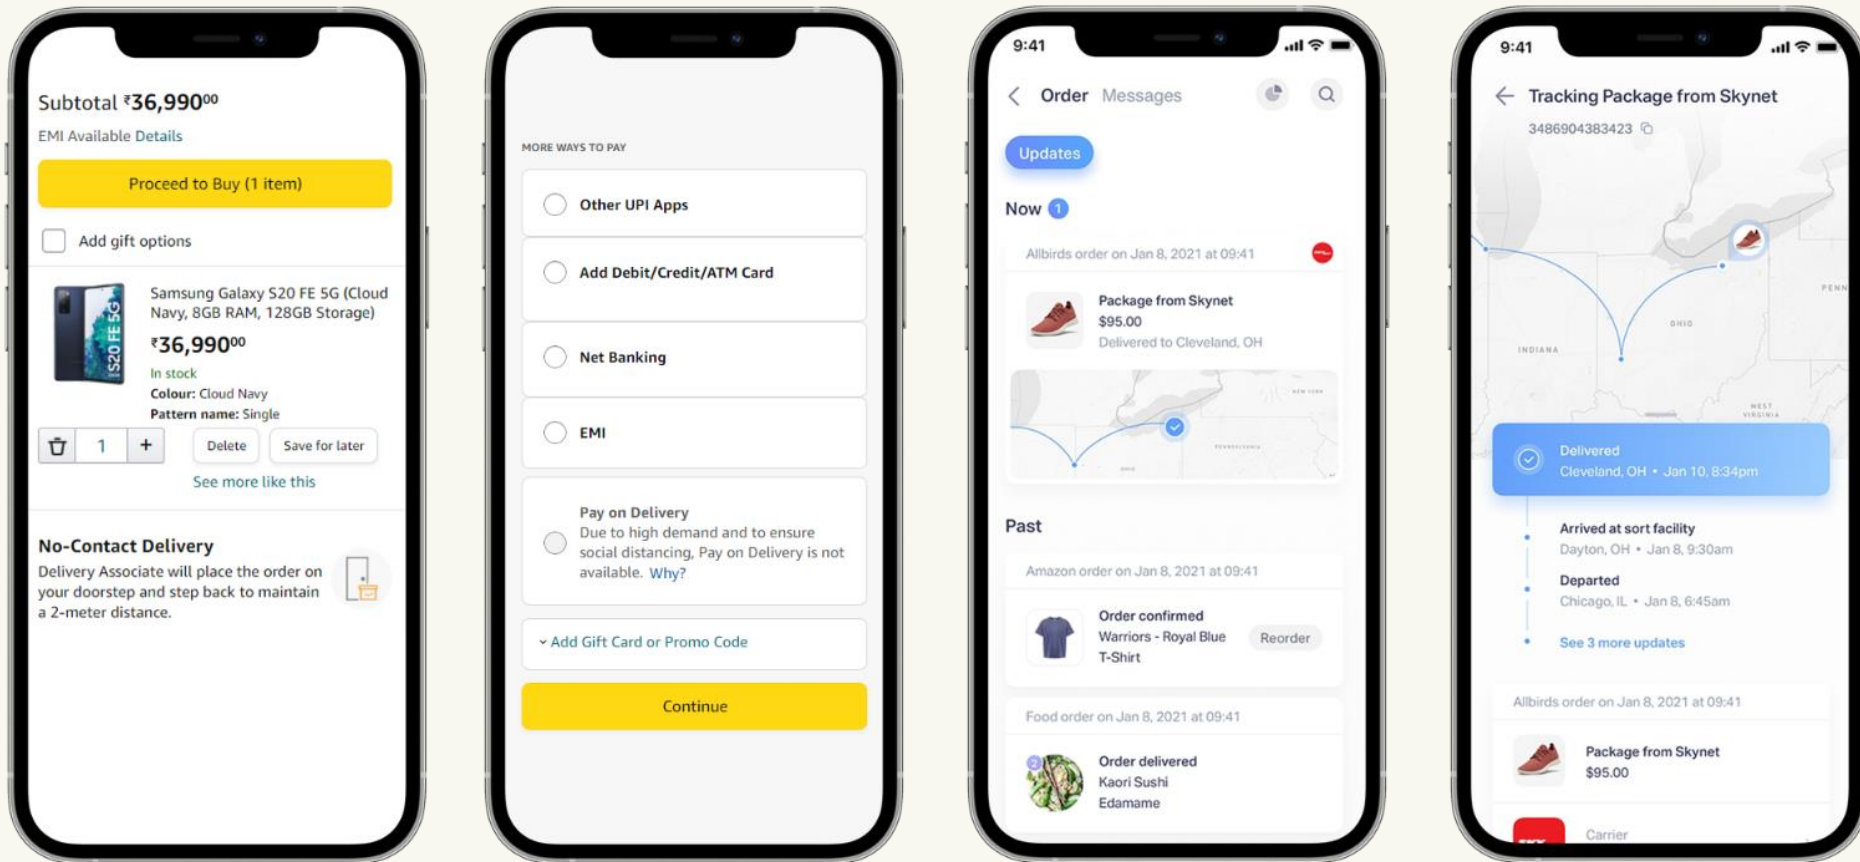

Target Market

- Customer Segmentation (Clearly mention your target audience). Who are your customers?
 - Our Target Customers Are From The All Age Groups, Children , Adults , Senior Citizen
- How big is your market: The size of the market vs the percentage you are targeting.
 - Our Main Target Customers Are Adults.
 - From About 100 Million Adult We Are Targeting About 65-75%.
- What channels will you use to get to this market?
 - Electronic Medium
